

## GSSC Clothing

Swimmers should wear their GSSC practice/spacing suit at all practices. The Head Coach will determine a day per week in which swimmers can wear any one-piece athletic style suit of their choice.

GSSC spacing or figures suit must be worn during practice at meets (coach will determine which).

Competitive routine swim suits will be fitted early in the season (September) and all swimmers are required to attend the arranged fitting session with the supplier. Swimmers who miss the fitting session will be responsible for any extra costs associated with fittings or alterations resulting from missing the fitting session. **Coaches are responsible for designing routine suits to be reviewed by an executive member before ordering.** The executive may make suggestions and instruct the head coach on changes when there is a question of appropriateness or cost involved.

At the beginning of each season, the Executive in consultation with the Head Coach will determine what clothing is required for the season. Other than the competitive swim suit, an additional cost will be incurred by parents. Please note that GSSC tries very hard to keep the clothing consistent from one year to the next to help alleviate costs.
